

Bundled Freight Saves Shipping Costs

Many of our customers have told us that they know exactly the booth they want, they have the funds to purchase it, but are concerned about the cost of freight to economically get it into their hands.

What many of our customers don't know and are pleasantly surprised to see when we provide them with a "firm" freight cost, is we bundle our shipments to keep freight costs down.

Many are amazed at the cost we offer to ship booths across the country. For example, we constantly have orders shipping weekly to all parts of the U.S. Therefore, we carefully plan to fill each truck with orders for customers located in similar areas. So facilities in Texas, Florida, Maryland and Washington D.C. all have their buildings loaded onto one truck.

Shipping costs can be shared by bundling several booths on one truck. All facilities share the expense of shipping costs, which end up being much lower than solo shipping. Shipping costs need not stand in the way when you want the best in B.I.G. high security guard shelters. B.I.G. is committed to many things. Saving you money and your satisfaction are just two of them.
