

Whatever your need, guard booths from B.I.G. Enterprises can blend in or stand out

When a guard shack is needed - whether perimeter security, recycling, landfill, access control, school security, distribution center security, datacenter security, parking, entertainment, military or government, B.I.G. Enterprises (bigbooth.com) has a prefab booth solution that will blend with your architecture and enhance it OR stand out, attract attention OR intimidate.

All B.I.G. products are designed and manufactured to comply with all current codes including energy codes for every City in the US, and B.I.G. is a state-approved Modular Building Manufacturer so many units are delivered with the State approval insignia making permitting very easy.

With the booth above, B.I.G. Enterprises, Inc. manufactures guard shacks that have proven to be far more cost effective than site-built structures. The featured unit is 250 square feet fabricated from galvanized steel construction with bullet resistance in the transaction area, including bullet resistant slide out transaction drawers and bullet resistant electronic microphone and speakers in the bullet-resistant glazing.

Additional features include clear anodized aluminum roll-down security shutters to cover the windows with the drum recess in the overhang soffit, galvanized steel floor welded to structural framing and joists with polyvinyl-chloride

Continued on next page.

interlocking floor tiles, full ADA compliant restroom area, extensive casework, full electrical package with LED lighting, outlets and data\communication J-Boxes, commercial roof-mounted HVAC with all recessed ducts to the supply and return registers. To finish it off, high-solids polyurethane paint finish over two-part polyurethane primer will protect this booth for multiple decades—from all weather extremes.
